PROFESSIONAL SUMMARY

Full Stack Developer (Fresher, 2026) with hands-on experience in Python, FastAPI, Django, REST API design, and SQL databases (MySQL, PostgreSQL). Built a Retrieval-Augmented Generation (RAG) pipeline using LangChain, ChromaDB, and Sentence Transformers. Experienced with JWT authentication, SQLAlchemy ORM, Agile/SDLC, and Git/GitHub-based version control.
CGPA 8.1/10, no arrears, with honors.

EDUCATION

B.E. Computer Science and Engineering

May 2026

University College of Engineering, Dindigul · CGPA: 8.1 / 10 · No Arrears · With Honors

EXPERIENCE

Software Development Intern · ANCIT Consulting

Aug–Sep 2025 · Dindigul

- Owned end-to-end delivery of a live Trainer Tracking System for the Naan Mudhalvan state government program (Java, Node.js, REST APIs), enabling real-time zone-wise and hub-wise session tracking for trainers and admins across $[X \text{ zones} / Y \text{ hubs} / Z \text{ trainers}]$ — add real figure
- Built geo-tagged photo capture for session verification, 12-week curriculum progress tracking, student attendance logging, and expense reporting in one unified platform.
- Delivered role-based access control (RBAC) for trainer and admin roles, and built RESTful API endpoints for real-time data submission and session management across Agile sprint cycles.

Technical Support Intern · Kotttravai Enterprises

Jun–Jul 2025 · Tenkasi

- Built and shipped a responsive company website end-to-end (PHP, CodeIgniter, MySQL, Bootstrap, JavaScript) with mobile-first UI and RESTful API integrations for core business functions.
- Improved frontend page load speed by ~35% by optimizing Bootstrap components and asset loading.

PROJECTS

AI Chatbot Platform with Authentication

2026

React · FastAPI · Python · Groq API · SQLAlchemy · JWT · Bootstrap

- Built a full-stack AI chatbot with JWT authentication, persistent multi-turn conversation storage, and a React frontend connected to a FastAPI REST backend.
- Integrated the Groq API to stream real-time AI responses at sub-200ms latency; used SQLAlchemy ORM for user management and chat history.

Semantic AI Ticket Routing System

2026

Python · FastAPI · Sentence-BERT · MySQL · Cosine Similarity

- Engineered an NLP classification engine on 28,587 enterprise support tickets using Sentence-BERT embeddings, reaching 94.2% accuracy and a 0.92 F1-score.
- Reduced manual triage effort by 82% through automated REST API endpoints; delivered a full web UI for ticket submission, routing, and management.

AI Interview Preparation Bot (RAG)

2026

Python · LangChain · ChromaDB · Sentence Transformers · Ollama (Phi-3) · Streamlit

- Built a RAG pipeline that extracts and chunks text from uploaded PDFs, embeds them with Sentence Transformers, stores them in ChromaDB, and retrieves relevant context to generate grounded interview-prep answers via a locally-hosted Phi-3 model (Ollama), with a Streamlit front end.
